FILTRATION

Hengst Quality and Performance

Established in 1958 | Family business for three generations
21 locations on 4 continents | 3,000 global employees

Hengst is a leading supplier of filtration technology for engine and vehicle manufacturers. We're known worldwide for our customer service, lean structure, innovative technologies and operational excellence.

In North America, we're growing rapidly by adding filtration coverage for a wide range of equipment, including commercial vehicles/trucks.

With Freightliner Cascadia models being the #1 heavy-duty truck brand/model in North America, we offer broad coverage for these popular trucks – with most parts in stock and ready to order.
